

Krystian Kamer

Junior Frontend Developer

I'm Krystian, a **Junior Frontend Developer** passionate about building modern and efficient web applications. I specialize in technologies like **React.js**, and **Next.js**. I write clean, readable code while applying well-established best practices like **SOLID**, **KISS** and **DRY**. I continuously improve my skills to build intuitive and high-performance user interfaces. I improve my skills through personal projects, courses, and community engagement.

📍 Poland, Lodz

Technical skills

- React.js, TypeScript, Next.js
- React Router, React Query
- HTML, CSS, JavaScript
- TypeScript, GIT
- Redux Toolik, Zustand
- Tailwind, Bootstrap, Styled Components, SCSS
- Firebase

Language

- English B1/B2 intermediate
- Polish native

Courses

- Udemy JavaScript Course
- Udemy React, TS, J.Smilga Course
- Udemy HTML, CSS, RWD Course
- Udemy SASS, JS, Bootstrap Course

Work Experience

Freelancer | Junior Frontend Developer

01.2025 - present

- Developing user interfaces using **HTML**, **CSS**, **JavaScript**, **React.js**, **Next.js**, **TypeScript**, **SCSS**, **TailwindCSS**.
- Implementing dynamic components and user interface logic with **React.js**, **Next.js**, **Redux**, **Zustand** for handling asynchronous operations and data streams.
- **Optimizing** application performance and ensuring compatibility with various browsers.
- Designing responsive and intuitive web applications based on mockups from **Figma**.
- Strong **problem-solving** skills, attention to detail, and ability to quickly learn new technologies.

Personal Projects

Movie Researcher

2025

- I built a application using **Next.js** with **TypeScript** to fetch movies, series and people with search and filter options.
- I styled the project using **TailwindCSS** and added accesible components from **Shadcn/UI**.
- For the animation, I used the **Framer Motion** library, which enhances the perception and interactivity of the website by adding smooth transitions and visual effects.

Czolem w Klawiaturę

2024

- I built a humor blog about Frontend using **React.js & TypeScript**, which is also my portfolio.
- To handle routes I used **React Router**, to handle animation I used **React Intersection Observer**.
- For dragging elements on page, I used the **dnd-kit** library that affects interactivity.
- I used **Zustand** to preserve the state of deleted files from the restored computer desktop.
- The design has been styled with **TailwindCSS** and its plugin - **DaisyUI**.

Pickle Rick

2024

- I created application to find characters, locations, episodes from the Rick and Morty universe by using **React.js** with **TypeScript**.
- To manage the state of the application I used **Redux Toolkit**.
- In order to speed up the site, I used **React Query**, which stores the retrieved data. This tool also helped create the infinite scroll on page.
- For store login and registration data, as well as favorite characters, I used **Firebase**.
- I used **axios** to retrieve data from an external **API**.

Pentago

2024

- I built a two-player game called Pentago using **React.js**, which is a reproduction of the real game I have on my shelf.
- I styled the project using **CSS**.

Collaborative Projects

Apolonia Games Hub

2025

- Browser post-apo game co-developed by a team of 15-20 people.
- I participate in a group, perform assigned tasks on the frontend side using **React.js** and **TailwindCSS**.
- I take part in regular meetings where we exchange knowledge and ideas.
